Testimonial

"Modern conservative dentistry needs restorative solutions that simplify our procedures, making them more precise and efficient at the same time. myQuickmat All-round is a good example of this. It allows performing posterior restorations comfortably and straightforwardly, achieving anatomical results with natural contours and correct contact points."

Dr Jordi Manauta,
Italy

API
(Autoclavable Placement Instrument for Quickmat All-round)

API is the Autoclavable Placement Instrument that makes Quickmat All-round stable and easy to place. Ergonomic and easy to use, API is the All-round Star!

The Wedge

Interdental wedges that combine flexibility and rigidity for optimal matrix adaptation even in concave areas.

myQuickmat All-round is the circumferential matrix system designed to perform anatomical posterior restorations of teeth with missing structures. The easy-to-use Quickmat All-round matrices enable restorations with naturally contoured anatomies and tight contact surfaces. Thanks to API (Autoclavable Placement Instrument), positioning Quickmat All-round matrices is stable and straightforward. API provides support and prevents the tensioning spool from tilting during matrix tightening. With myQuickmat All-round circumferential matrix system, you can comfortably treat challenging cases in the posterior region, working on an obstacle-free, accessible operating field.

kit

myQuickmat All-round introkit - REF 6850

- 2 pcs API (Autoclavable Placement Instrument for Quickmat All-round)
- 15 pcs Quickmat All-round circumferential posterior matrices, premolar - 0.03mm / 5.5mm
- 15 pcs Quickmat All-round circumferential posterior matrices, molar - 0.03mm / 6.3mm
- 45 pcs The Wedge interdental wedges - assorted

refills
